

Exceptional heating

With over 80 years experience in designing and manufacturing the world's finest wood burning cast iron stoves, Franco Belge are renowned for their intricate cast iron work, rugged reliability and beautiful finishes.

All Franco Belge stoves feature powerful air wash systems to provide cleaner burning and help keep the glass crystal clear which offers the largest possible view of the flames. Each and every Franco Belge stove is constructed from top grade cast iron for a lifetime of dependable service.

Exceptional efficiency

Benefitting from primary, secondary and tertiary air, each stove from Franco Belge gives you the control needed for perfect regulation of the stoves output whilst always ensuring maximum efficiency.

Air wash system

Each Franco Belge stove features a clever air wash system, ensuring maximum combustion of the fuel and perfectly clear glass so you can experience a wonderful view and comfort from those flickering flames.

Smoke control exempt

With their clean burning combustion and low emissions, the Monaco, Montfort Elegance and Savoy Elegance can be used to burn wood in UK smoke control zones.

Heat retaining cast iron

Its ability to hold up to the highest temperatures, retain heat long after the fire has expired.

 **FRANCO BELGE**

2 year warranty

All Franco Belge stoves feature a 2 year warranty on all the stove body castings. This gives you the confidence and peace of mind when purchasing one of these stoves that they are designed and built to last.

Models covered by this warranty are:

Franco Belge Belfort

Franco Belge Montfort Elegance

Franco Belge Savoy Elegance

Franco Belge Monaco

Franco Belge Limousin

Franco Belge

Belfort, Montfort and Monaco

Wood burning and multifuel stoves

Franco Belge Monaco

Design features

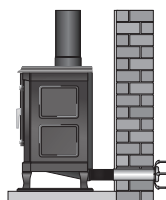

- Cast iron body
- Large viewing area
- Air wash system for clear glass
- High efficiency combustion
- Smoke control exempt (Montfort Elegance and Monaco)

* Smoke exempt air kits

A smoke exempt kit must be installed on the Montfort Elegance stove when being used to burn wood in a designated UK smoke control area.

External air kit key benefits are

- Most of the combustion air is routed from outside the house
- Draughts from air vents located around the room are reduced
- Helps prevent insect invasion through air vents
- Reduces external noise
